

MOXIE

Diploid perennial ryegrass (+0 days)

- Bred specifically for New Zealand conditions
- High levels of winter production
- Heading date of +0 for early season growth
- Diploid robustness
- Semi upright growth and high tiller density
- Bred with broad disease tolerance
- Available with AR1 endophyte

Sow Moxie as the main grass component, or mix with Hustle perennial ryegrass and Greenly II new generation cocksfoot for additional pasture resilience.

Feed available

Features excellent performance over the key growing seasons

Stock suitability

All stock types

Sowing rate

15 - 20 Kg/ha

Dependant on mix, use a lower rate with Greenly II cocksfoot
